Mohammed-Khaled Demi-KH

SUMMARY

Aspiring Software Engineer with foundational skills in C, C++, Python, and Java, complemented by hands-on experience in web development and cloud computing. Developed a clothing store management website as a PHP Full Stack Web Developer and a Java desktop application for a freelance platform. Eager to leverage technical expertise and project experience to contribute to innovative software engineering projects.

EDUCATION

Arab Academy for Science, Technology & Maritime Transport Sep 2024 – Sep 2026 | Aswān, Egypt

Associate's, Computer Software Engineering (GPA 2.9 / 4.0)

- Participated in the ECPC 2022 Qualification Contest gained experience in competitive programming, and problem-solving under timed conditions.
- Built a PHP website, a Java desktop application, and a Python desktop application completing all three projects within one semester demonstrating versatility in both web and desktop development.
- Currently, dedicating efforts to mobile app development, focusing on creating user-centric designs and functionality.

PROJECTS

Clothing store management website Jun 2024 – Aug 2024

- Utilized PHP and MySQL to develop a secure backend infrastructure, implementing a user login system with distinct access levels for staff, and management, which improved operational efficiency.
- Integrated inventory management and order tracking features with JavaScript and AJAX, enabling real-time data updates and reducing inventory discrepancies by 20%.
- Designed an intuitive, accessible interface using HTML, and CSS, improving user navigation and enhancing customer satisfaction by 30%.
- Developed a user-friendly interface to improve operational efficiency, leading to faster task completion and reduced errors.

Mobile Review and News Platform Feb 2024 – Apr 2024

- Implemented content management features for efficient article creation and updates.
- Developed user interaction functionalities, including commenting and feedback options.
- Designed a streamlined interface, enhancing user experience and accessibility.
- Achieved improved user engagement and facilitated easy access to mobile-related information.

Java Desktop Application for Freelance Platform Feb 2024 – Apr 2024

- Includes secure login features, with distinct roles for freelancers and clients to ensure a tailored experience.
- Stores, updates, and retrieves freelancer and client information efficiently, using file handling for persistent data storage across sessions.
- Offers a visually appealing and intuitive interface through JavaFX, providing easy navigation for users to browse job listings, submit proposals, and track project progress.
- Prioritizes functionality and efficient data handling, allowing users to manage projects effectively while ensuring data integrity, and security.

SKILLS

Programming Languages
- C
- C++
- Java
- JavaScript
- PHP
- Python

Version Control Systems
- Git
- GitHub

Conceptual Knowledge
- Object Oriented Programming (OOP)
- Data structures
- Algorithms
- Agile & Scrum
- Kanban
- Clean Code

Web Development
- HTML & CSS
- ReactJS
- TailwindCSS
- Material User Interface (MUI)

Backend Technologies & Tools
- MySQL
- Linux
- Visual Studio
- Visual Studio Code
- CLion
- PyCharm
- IntelliJ

Soft Skills
- Team Collaboration
- Communication Skills
- Problem Solving
- Time Management

CERTIFICATES

- ECPC Qualifications Collegiate Programming Contest
- Agile Project Mangement
